

Theme: School

School is a place where we stay for study  
School is a place where we can have buddies  
School is a place where we can join activities  
We have a great school life!

I love my teachers  
Just because they like my parents to take care of me  
Just because they like my notebooks to remind me  
Just because they like my friends to talk to me.

I love my classmates  
Just because they are truthful to me,  
Just because they are respectful to teachers,  
Just because they are dutiful to parents.

School is my lovely home  
We will never leave anyone alone  
We have courage to learn and grow  
We are united  
And our friendship will last till we grow old.
